True HEPA Filter captures 99.7% of particles from the air that passes through the filter 0.3 microns and larger

Included True HEPA Filter and Activated Carbon Filter may last up to 2 years depending on environment

Auto Mode monitors air quality and adjusts air purification and humidity levels

## AIR PURIFICATION FROM A BRAND YOU TRUST

The Plasmacluster® 7000 Series KCP110CW Smart Air Purifier by SHARP is your choice for extra large rooms. Effective up to 2,603 sq. ft. at one air change per hour, the KCP110CW will filter the air in the AHAM Suggested Room Size of 538 sq. ft. at 4.8 air changes per hour.

The triple filtration system helps clean the air that passes through the filters in three ways. The washable, microscreen pre-filter traps dust and other large airborne particles. The activated carbon deodorizing filter helps reduce some common household odours. Finally, the True HEPA filter effectively captures 99.97% of particles from the air that passes through the filter from 0.3 microns and larger. The KCP110CW includes a humidifier that may make your home more comfortable.

The KCP110CW features Max, Med, and Low fan speeds, plus Auto. In Auto mode, the dust and odour sensors will monitor your air quality and adjust the fan speed automatically. The convenient fixed caster wheels make it easy to move the KCP110CW from room to room.

Additional settings available in the app and via voice command include Sleep, Pollen, and Express Clean Modes. Weekly Scheduler, Filter Replacement Status, Auto Presence ON/OFF, and Air Quality Information History are also exclusively available in the SHARP AIR App. The Library Quiet™ Sleep setting is perfect for the bedroom.

SHARP Plasmacluster® Ion Technology has been used in over 100 million products worldwide, including leading auto makers and refrigeration appliance manufacturers. It's no wonder people around the world trust SHARP. Now that is Simply Better Living.
